OUR STRENGTH

OUR 10000 SQFT EXCLUSIVE DEMO CENTER

- Kaesun Sports is the oldest fitness equipment manufacturing company from South Korea since 1980.
- We proudly present our brand to global market beyond Korean health & fitness industry.
- We have only one path in our history and experience for more than 40 years - QUALITY.
- Our priority is Designing, Manufacturing Quality Products, with right Sales Support and post sale customer service to every customer with personalized approach.

The word 'Kaesun' means 'Improvement' in Korean. We believe that it is always necessary to build strength to win yourself, and know that you can earn this strength by repeatedly winning the fight of 'self-improvement' everyday.

BALANCED

Kaesun Sports manufactures various fitness machines from entry-level products to high-level works of ingenuity. Under many creations of Kaesun Sports they are the unique devotion to fitness equipment manufacturing, which is unique balance of coordination for fitness production.

REFINED

Kaesun Sports focuses on the actual workout effect reflecting the customers' postures and reactions. For this, it is important to listen to the customers and draw 'refined' decisions while designing our products.

DEDICATED

From 1980 to the present, Kaesun Sports have learned its industry, focusing on the product itself, business model, and the international market, rather than the flamboyant and grand title for our brand. Kaesun is the brand, We endeavored for success.

T600 Si

Dot Matrix, LED

T800 AI -24" COMMERCIAL TREADMILL

Display	24" Touch screen
Speed	1~25Km/Hr
Motor	3HP
Incline	16level
Running Belt Size (WxL)mm	540x1655mm
Program	Training program, Virtual program
Features	Touch screen, Auto stop function, Mirroring,
Max User Weight	Fast wireless charge, Wifi, Bluetooth, OTT, Internet
M/C Weight	180kg

The New Standard in Body Composition Analysis

High Consistency with DEXA

BODY COMPOSITION ANALYZER
Multi-Frequency Segmental Body Composition Analysis
using BIA Technology

Certification and Awards

ACCUNIQ BC720

Premium Body Composition Analyzer

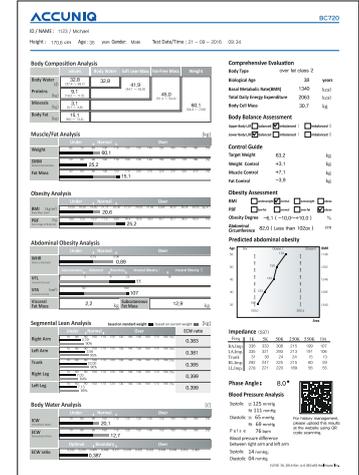

Features

8.4 Inch Wide Color LCD Touch Screen

Frequency Range 1, 5, 50, 250, 550, 1000kHz

- Risk factor assessment and prevention through prediction of abdominal fat and phase angle measurements
- Ultrasonic height meter specifically for the BC720 (optional)
- Water balance assessment
- QR code support on results screen
- Data management using ACCUNIQ Manager

Result sheet

- Body Composition Results
- Segmental Results
- Result sheet for Infants (optional)

Result breakdown

- **Body composition analysis:** Intracellular Water, Extracellular Water, Total Body Water, Body Fat Mass, Soft Lean Mass, Skeletal Muscle Mass, and Lean Body Mass
- **Body Mass Index, Body Fat Percentage, Basal Metabolic Rate, Required Daily Calories, Body Age, and Body Type Evaluation**
- **Various types of abdominal fat assessment:** Visceral Fat Level, Visceral Fat Area, Waist-Hip Ratio (W.H.R.), Subcutaneous Fat Mass, Visceral Fat Mass, and Prediction of Abdominal Fat
- **ECW/TBW for the whole body, ECW/TBW for each segment, and Phase Angle**
- **Segmental assessment:** Soft Lean Mass (dual graph), Body Fat Mass, ECW/TBW, Body Water, Intracellular Water, and Extracellular Water
- **Body composition change graph:** Weight, Skeletal Muscle Mass, Body Fat Mass, Body Fat Percentage, Body Mass Index, Waist-Hip Ratio, and ECW/TBW
- **Segmental Results sheet:** Cumulative graph of body composition changes and body type assessment table (20 levels)

(Optional)

ACCUNIQ BC380

The New Standard Body Composition Analyzer

Enhanced expandability
by connecting the product
to various devices

(Optional)

Ultrasonic Height Meter

The ultrasonic height meter increases precision and automatically inputs height.

Features

7 Inch Wide Color LCD Touch Screen

Frequency Range 1, 5, 50, 250 kHz

- Ergonomic design that enables the user to adjust the foot plate height and size
- User-friendly, organized, and simple GUI
- Enhanced customer service through remote support programs (ACCUNIQ Remote Support)
- QR code support on results screen
- Data management using ACCUNIQ Manager
- Wi-Fi and Bluetooth support (Optional)

Features

Measuring Method	Tetra-polar electrode method using 8 touch electrodes
Frequency Range	5, 50, 250kHz
Display	7 Inch Wide Color LCD
Measuring Site	Whole body and segmental measurement (arms, legs and trunk)
Power Consumption	60VA
Measuring Current	Approx. within 280pA
Weight	Approx.10kg (main unit)
Measuring Range	100~9500
Measuring Time	Approx. 1 minute
Applicable Height	50~220cm
Measuring Weight	10~200kg
Applicable Age	1~98 years old
Dimension	Main Unit 400% 735 x 890mm (W x D x H+10mm)
	Main Unit + Height Meter 400 x 845 x 2250mm (W x D x H +10mm)

ACCUNIQ BC310

Basic Body Composition Analyzer

Features

Measuring Method	Tetra-polar electrode method using 8 touch electrodes
Frequency Range	5, 50, 250kHz
Display	Mono Graphic LCD
Measuring Site	Whole body, Upper part of the body, Lower part of the body (Selective)
Measuring Current	Approx. within 180 μ A
Weight	Whole body Approx. 13.5kg (Including the column) Upper part of the body Approx. 11kg, Lower part of the body Approx. 10kg
Measuring Range	100~950 Ω
Measuring Time	Approx. 1 minute
Applicable Height	50~220cm
Measuring Weight	10~200kg
Applicable Age	1~99 years old

ACCUNIQ BP500

Automatic Blood Pressure Monitor

Features

Measuring Method	Oscillometric
Display	Custom Mono LCD Display
Measuring Range	Pressure 0 ~ 300mmHg, Pulse 30 ~ 240bpm
Accuracy	Pressure =2mmHg, Pulse within =1.5%
Cuff Type	Double cuff type
Minimum Scale unit	1mmHg
Pressurization	Complete automatic pressurization
Exhaust	Electronic exhaust system by micro control
Dimension	450(W) x 502.4 (D) x 278.7(H)mm (= 10mm)
Weight	About 4.8 kg

BP850

Dual-Arm Blood Pressure Monitor

Features

- 1 7" - wide color LCD display (touchscreen)
- 2 Easy-to-use one-touch button (hand switch and foot switch)
- 3 High-speed thermal printer featuring simple paper replacement and fast printing
- 4 Cuff guide rings with diameter of 150 mm to keep the user comfortable
- 5 Cuffs and movement sensor at the same level to make analysis more accurate

Hand and Foot switch for comfortable measurement

Specifications

Model	ACCUNIQ BP850
Measuring Method	Oscillometric
Display Mode	Color LCD Touch Display (7 inch)
Measuring Parts	Left•Right•Both arms
Measuring Ranges	Pressure 30~300 mmHg, Pulse 30~240 bpm
Accuracy	Pressure ± 3 mmHg Pulse Within $\pm 3\%$
Cuff Type	Double cuff with automatic pressurization
Resolution	1 mmHg
Pressurizing Method	Automatic pressurization by DC-MOTOR
Method of exhaust	Micro-controlled electronic exhaust type
Pressurizing Time	Approx. 20 seconds per pressurization
Measuring Time	Approx. 50 seconds per measurement
Power Consumption	Input AC 100~240V, 50/60 Hz Output DC 12V5A adaptor
Data Transmission	RS-232C, USB cable
Operating Range	Temperature 10~40°C (50°F~140°F), Humidity 30~75%
Storage Environment	Temperature -10~60°C (-50°F~140°F), Humidity lower than 95%
Dimension	530(W) x 481(D) x 319(H)mm
Weight	Approx. 26.5lb • 12kg
Printer	High speed thermal printer
Function	Sensor for detecting arm - Left•Right Memory - Comparing previous and current results Safety function - Emergency stop button
Optional Equipment	Height adjustable chair A4 result sheet, data management program

GB7009 TOTAL BODY TRAINER PRO

Active Series- Master Total Body Trainer Pro works with upper body ergometer and recumbent bike and is equipped with a wide range of people. Exercising range from adults, elderly people, disabled to physiotherapy, efficient exercising is achieved thanks to total body ergometer. This innovative design and advancing technology “Brain Game” console system is increasing coordination for far away dementia. Body Charger Total Body Trainer is a versatile investment accommodating a wide range of users, exercise goal, and workout types making it perfect for almost any purpose.

GB7005AP DUAL ACTION ELLIPTICAL RECUMBENT BIKE

Large 9" backlit white touch panel display with 18 workout programs. Included the constant training programs for better interval training. The very low start resistance fits everyone even for the elderly.

GB7008 DUAL ACTION RECUMBENT STEPPER PRO

Large 9" backlit white touch panel display with 18 workout programs. Included the constant training programs for better interval training. The very low start resistance fits everyone even for the elderly.

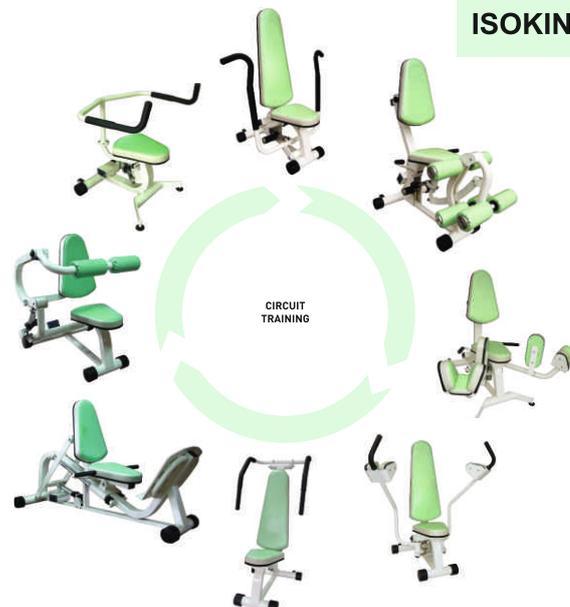

BODYGREEN

Your Health . We Care

FEATURES

- Resistance exercise designed to provide a preset level of resistance while maintaining a same speed of movement.
- The electronically controlled cylinder regulates a constant speed throughout the entire range of motions.
- This promotes the highest degree of muscle contraction by compelling the user to manipulate the resistance against a constant speed.
- This limits the risks associated with straining or pulling the muscles caused by the typical acceleration and deceleration common with the manipulation of free weights or weight stack devices.
- Assistant training for muscle strength, health care, and shape keeping, especially design for ladies, elders and children.

AQUA FITNESS

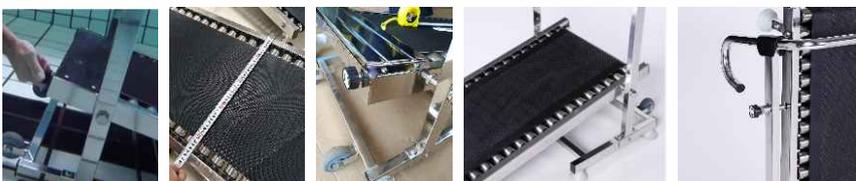

AQ5001 AQUA-TREADMILL

Make Every Step Smarter
Every Steps is Smart With Welcare Aqua Treadmill

Gain the unlimited benefits of walking. Low Impact on joint, Minimum Muscle soreness, Achieve your weight loss goals, rehab, pain management and cross-training using our exclusive Stainless Steel Underwater pool treadmill. Experience the huge difference for people with arthritis, back problem or anychronic pain. Check with your physician / physiotherapist about the advantage of aquatic exercise to manage your pain, increase flexibility, etc.

Specifications

Running Area	825x350mm (32"x13")
Weight	22Kgs
Gross Weight	26Kgs
Max. Load	Up to 6'5" and 150Kgs
Material	304 Grade Stainless Steel
Rollers	18 PCS
Bubble Air Lock	6 PCS
Movable Wheels	Yes

AQ5002 AQUA BIKE**A New Way to Ride a Wave**

Achieve your fitness goals without riding on the roads. Add our Aquabike to your pools and experience the traditional stationary cycling workout in water. Burn Calories and improve your cardiovascular fitness goal by staying cool and Spinning in water. Our Aquabike is easily adjustable to suit various user height and having perfect fit. Within 20 minutes of workout achieve your exercise goal using our Aquabike.

Specifications

Weight	22Kgs
Max. Load	Up to 6'5" and 150Kgs
Material	304 Grade Stainless Steel
Adjustability	Legs, Handlebars, Seat
Bubble Air Lock	4 PCS
Movable Wheels	Yes

**AQ5003 AQUA-TAMPOLINE****Make Every jump enjoyable With Welcare Aqua-Tampoline**

Exercising using our underwater trampoline is considered superior and improves muscle strength of quadriceps and abductors. In general, the nature of the trampoline causes a shaking effect on the muscle spindles, thus improving muscle tone.

A 30-minute rebounding session in water is equivalent to a two-hour walk on land. That's true! Water resistance offers a great opportunity for body sculpting and muscle toning.

It also cools the body during exercising, which helps reduce stress on the heart and the risk of injury by lessening the impact on weight-bearing joints, bones, and muscles.

Specifications

Jumping Diameter	700mm (27.5")
Max. Load	Up to 6'5" and 150kgs
Material	304 Grade Stainless Steel
Bubble Air Lock	5 PCS

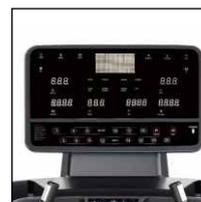

FIRM CARDIO

PREMIUM / DURABLE / UNIQUE.

Our cardio machines offer elevated performance with intelligent Spanish design, natural feel, and smooth movement. Innovative engineering includes whisper-quiet motors, responsive touchscreen, and world-class bio-mechanics for a new cardio experience where technology meets endurance.
